EDUCATION

Carleton University, Ottawa Ontario - *Bachelor of Civil Engineering*

September 2018 - Current

- Fourth year of study

-
- Expected graduation date: April 2022

PROJECTS

Capstone Design Project, Carleton University - *Team Member*

September 2021 - Current

Tasked to design a set of asphalt mixtures for helping solve the issue of thermal cracking that you see in our asphalt roads in Ottawa. Review technical documents, asphalt design manuals and specifications of ASTM and AASHTO to design mixtures that reduce thermal cracking.

Reverse Engineering Project, Carleton University - *Team Member*

September 2018 - December 2018

Tasked with proposing a solution to a design flaw of a simple common handheld object. Instructed to conceptualize many design ideas, create a work breakdown schedule for each group member, generate a 3D prototype of the product using a CAD software, form a report explaining the product's function and the manufacturing process and establish cost changes of the product.

Green Home Design, Ajax Ontario - *Project Developer*

February 2018 - June 2018

Tasked with proposing an environmentally based design solution for homes in my local town. Investigated local zoning laws and methods for developing a self-sustaining housing, created detailed shop drawings using CAD software and created a budget/ materials spreadsheets to illustrate my final concept design.

EXTRA-CURRICULAR

Mobile App Developer - *Co-founder of Yeti Games*

January 2016 - Current

Carleton University Rowing Team - *Varsity Rower*

September 2019 - Current
